

April 11, 2025
Colan Totte Co., Ltd.

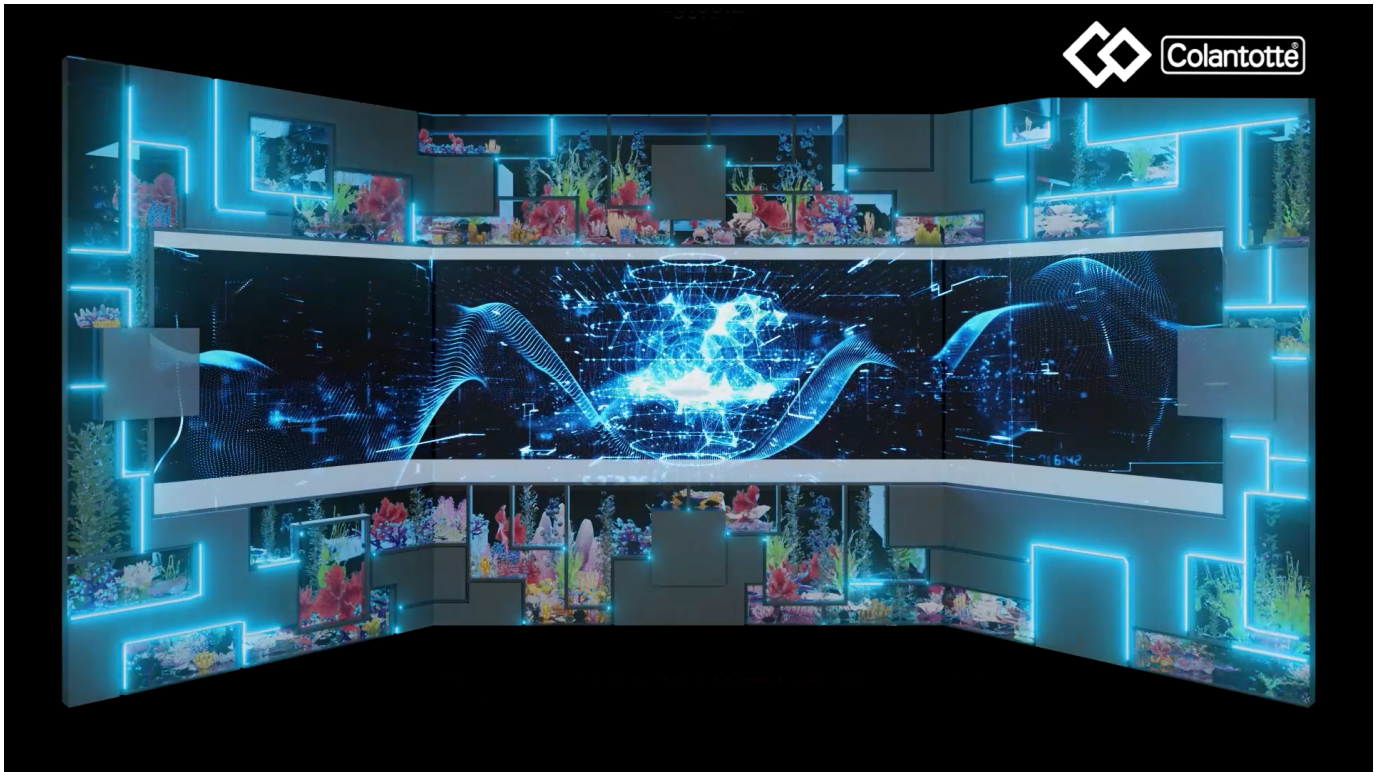

**The 2025 Japan World Exposition (Osaka-Kansai Expo) is finally opening!
Colantotte will participate with an exhibit at the "Osaka Healthcare Pavilion."**

Colan Totte Co., Ltd. (Headquarters: Chuo-ku, Osaka; President: Katsumi Komatsu), the manufacturer and distributor of magnetic health gear "Colantotte," will be exhibiting at the Osaka Healthcare Pavilion within the Future City zone, at the 2025 Japan World Exposition (Osaka-Kansai Expo), which opens on Sunday, April 13th. The Expo will run for 184 days from April 13th to October 13th, 2025.

With the theme “Living Healthily with Magnetic Force,” the exhibit will explore how magnetism — a natural force that exists on Earth — supports our health and shapes our future. Visitors will experience a projection mapping display that envisions a future society shaped by magnetic force. We invite you to enjoy an exciting journey filled with curiosity and imagination!

**Colantotte's Theme:****“Living Healthily with Magnetic Force”**

Magnetic force, a natural power that has existed on Earth since the beginning, helps improve blood circulation.

In the future, this magnetic force will support people's health in every corner of the city.

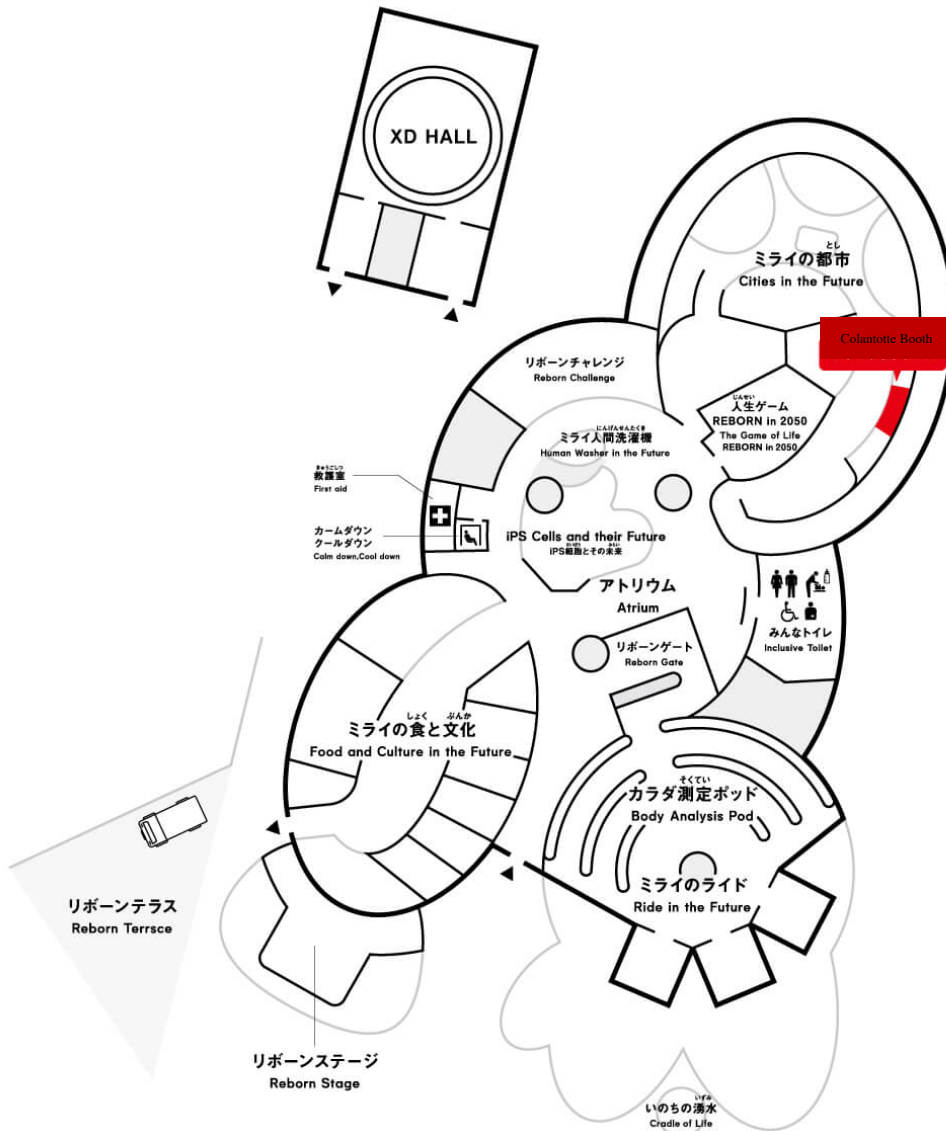

From wearable items like accessories and clothing to entire spaces embedded with magnetic elements — people will naturally become healthier just by living their daily lives. Would you like to take a peek into a future where this mysterious power from the Earth plays an active role?

QR Translator®

At the booth, we have adopted the multilingual display service QR Translator®, developed and provided by PIJIN Inc. By scanning the QR code installed within the booth, visitors can view an explanation of the projection mapping content, automatically displayed in the language set on their smartphone. (If the selected language is not supported, the explanation will be shown in English.) The system supports 15 languages including Japanese, and also features a text-to-speech function. This allows visitors from around the world to gain a deeper understanding of the future society shaped by magnetic force.
